PRODUCT DESCRIPTION

Designer: Carlo Volf

Aver Pendant Light by Nordlux

Designed by Carlo Volf, the Aver pendant breaks tradition with an exposed light bulb and metal threads. The lampshade features a curved silhouette with multiple metal threads cascading down to create a lightweight and airy feel. These threads then also produce an interesting play of light and shadow, as shadows are cast into the surroundings for a playful and wondrous aesthetic.

The Aver pendant lamp is available in three sizes, the Aver 30, Aver 40, Aver 50, and works best as a decorative light. You can use alone or in rows/clusters to create a dynamic display that is contemporary and modern. Use in many interiors and applications, at home, in hospitality or in public spaces.
