PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Ginger A LED Outdoor Wall Light

Marset Ginger A LED Outdoor Wall Light is an IP65 exterior wall light by Joan Gaspar, developed from the wider Ginger collection for outdoor use. The design keeps Ginger's thin circular shade, but uses a painted aluminium diffuser instead of the wood finish used on the indoor versions. Its slim shade and projecting wall arm give the fitting a simple, recognisable shape on exterior walls.

Ginger A is available in two sizes, 20A and 32A. The smaller version suits tighter areas such as doorways, passages, smaller patios, and narrow garden walls, while the larger 32A has more presence for wider walls, terraces, and commercial entrances. Black / White keeps the look close to the indoor Ginger range, while Rust Brown gives the outdoor version a warmer finish. Both versions have a white interior to the shade.

The integrated LED gives warm 2700K light, and the fitting is dimmable via Triac dimming. The Ginger 20A is supplied with a remote driver, which needs to be located in an interior setting near the product, as the driver is not IP rated. Most suited to entrances, garden walls, patios, terraces, pathways, restaurants, hotels, and exterior seating areas where a slim outdoor wall light can provide soft, practical light.

Please Note: The Ginger 20A is supplied with a remote driver which needs to be located within the vicinity of the product, in an interior setting, as it is not IP rated. Please consult your electrician.

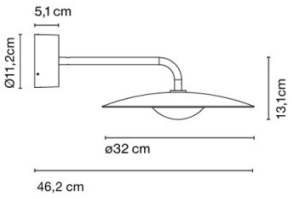

PRODUCT SPECIFICATION

Light Source:	**Ginger 20A, Black / White:** 5W, 2700K, 161 Lumens **Ginger 20A, Rust Brown:** 5W, 2700K, 29 Lumens **Ginger 32A, Black / White:** 9W, 2700K, 350 Lumens **Ginger 32A, Rust Brown:** 9W, 2700K, 81 Lumens
