PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Ginger A LED Outdoor Wall Light

The Ginger A outdoor wall light was inspired by the drums of Ginger Baker of Cream, the 1960's rock band. This design by Joan Gaspar features a thin aluminium shade that embodies the iconic Ginger silhouette. Usually made of thin layered wood, this new outdoor wall light is a metallic version of this classic design that allows this wall light to be placed outside. Available in black and white and a rust-brown finish, this stunningly simple design would bring a designer touch to your outdoor place.

The indirect light produced by the Ginger A outdoor wall light will create a soft glow for your garden, patio, or doorway. Available in a small (20A) and a large (32A), the Ginger wall light can be the perfect addition to the exterior of your home or commercial space.

Please note, that this product is supplied with a remote driver which needs to be located within the vicinity of the product. Please consult your electrician.
