PRODUCT DESCRIPTION

Designer: Chris Basias

KDLN Flow Ceiling Light

Designed by Greek lighting designer Chris Basias, the KDLN Flow Ceiling Light draws inspiration from leaves caught in the wind. Its sculptural black metal disc curves around a spherical opal diffuser, creating an organic silhouette that appears both contemporary and poetic. The diffuser is crafted from two layers of blown glass, producing a warm, diffused light that gently illuminates the surrounding space rather than creating harsh glare.

The KDLN can be installed as a single statement fitting in a bedroom, dining room, or living area. However, its real character emerges when installed in multiples to create a leaf-like composition that flows with a sense of rhythm across a ceiling. It can be combined with the **Flow Pendant** to create a more dramatic composition that is equally suited to residential interiors, restaurants, hotels, and other hospitality settings.

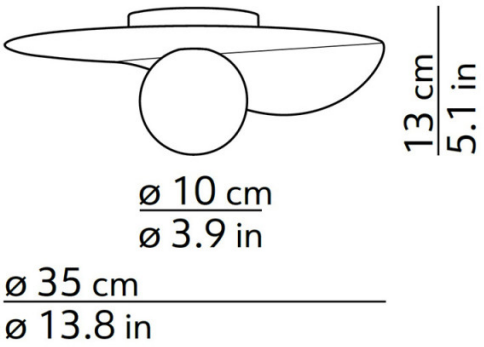

PRODUCT SPECIFICATION

Light Source: 1 x Max 25W G9 (Excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Ø35cm
Height: 13cm
Diffuser: Ø10cm
