PRODUCT DESCRIPTION

Designer: Patricia Urquiola

Flos Almendra Organic LED Suspension

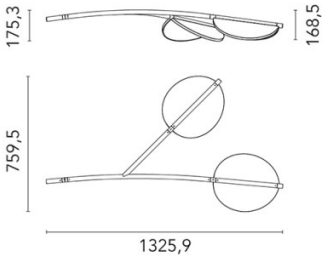

The Almendra Organic Suspension is a unique and innovative light designed by Patricia Urquiola as part of the **Flos Almendra collection**. The pendant gets its aesthetic from the almond tree, resembling the beautiful branches, leaves and almonds with its curved shades and sleek stem. The pendant lamp is also made from 100% recyclable materials, putting the natural world at the forefront of design for a contemporary and resourceful lighting solution.

The Almendra Organic pendant lamp comes in 2 variations: the S2 Y Short and the S3 Y Short. Each one has a specific aesthetic and comes with either 2 or 3 adjustable lampshades so you can choose depending on the size of your interior. The pendant light has an integrated LED light source for a long-lasting, efficient glow. The Almendra Organic can be used in a wide variety of settings for effective illumination, whether used as a main light, for accent lighting or above tables.
