PRODUCT DESCRIPTION

Designer: Patricia Urquiola

Flos Almendra Linear LED Suspension

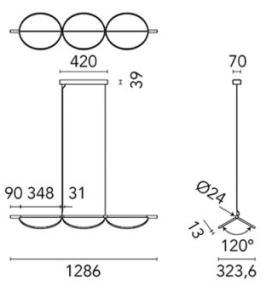

The Almendra Linear Suspension is part of the **Flos Almendra collection**, a stunning range designed by Patricia Urquiola. Inspired by the almond tree, this pendant light resembles the branches, leaves and almonds, creating a natural aesthetic in any interior. This look is paired with a natural colour palette, with the choice between a range of finishes.

The Almendra Linear pendant lamp comes in two sizes: the S3, which has three shades and the S4, which has four. These lampshades or "leaves" are also movable, creating a modular system that is unique to the user. Each leaf can be turned around 60° so you can decide where you want to direct the light, and you can create multiple lighting scenarios with just one pendant. A beautiful and contemporary fixture, the Almendra Linear suspension can be used in a wide variety of settings, as both a main light or for accent lighting.
