PRODUCT DESCRIPTION

Designer: Gino Sarfatti

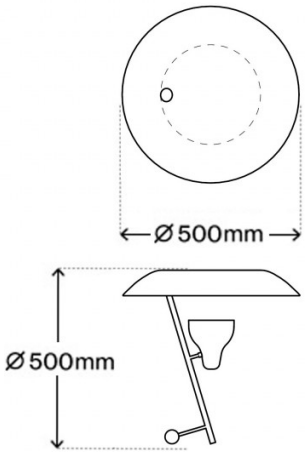

Model 548 LED Table Lamp by Astep

Originally designed by Gino Sarfatti in 1951, the lighting brand Astep have updated the fixture with an integrated LED light source and a touch dimmer. Sarfatti explores the idea of reflection and balance with the design of the Model 548, using a chic methacrylate lampshade and a luxurious brass stem/base. The light source sits in a subtle white holder halfway down the stem and reflects off the shade to produce a warm illumination. The white spotlight is also movable and features a dimmer switch so you can create different lighting atmospheres in your interior.

The Model 548 table light comes in four elegant colours and embodies vintage style with these finishes and general aesthetic. The table lamp beautifully balances with a brass rod used as a base and the angular stem has an elegant and refined look. Use in homes, offices and public spaces for graceful atmospheric lighting on tables, desks, side tables and more.

PRODUCT SPECIFICATION

Light Source:	11W, 2700K, 730 lumens
