HAY Parade LED Table Lamp

The Parade by HAY was designed by Danish husband-and-wife duo Viola Heyn-Johnsen and Jonas Trampedach, who set out to create an ambient light source with a sculptural presence. Made from coloured glass with a square base and arched top, the Parade LED Table Lamp changes its expression as it is viewed from different angles. Its name reflects the way multiple lamps command attention when arranged together, forming a parade-like display where the square lines fit neatly into a tessellated pattern.

Equally striking whether switched on or off, these elegant table lamps are available in a range of colours and sizes, allowing you to create a personal arrangement. With a three-step dimmer, the Parade emits a gentle ambient glow that helps create a calming atmosphere. Illuminated from within by its integrated LED, the handmade glass reveals every detail of its high-quality, stylish finish. Display at a bedside, in a living room, or in a reading nook for a soft, decorative glow that creates a sense of calm.

PRODUCT SPECIFICATION

Light Source: 5W, 2800K, 150 Lumens

IP Code: 20

Dimming: In-line dimmer included on cable.

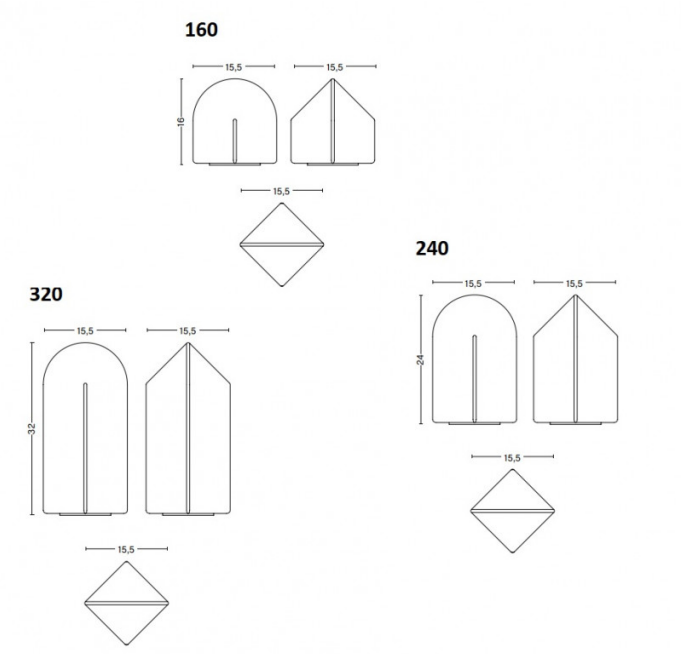

Dimensions:

160:
Height: 16cm
