PRODUCT DESCRIPTION

Designer: Dimitri Bähler

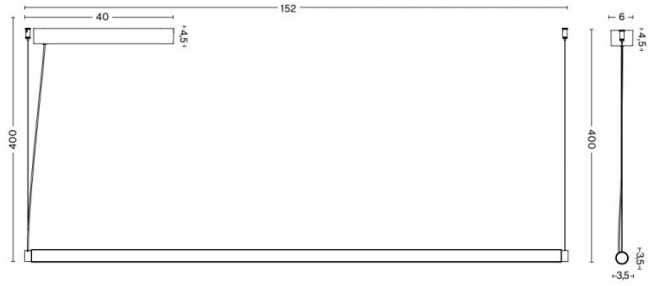

HAY Factor Linear LED Suspension Light

The Factor Linear Suspension Light was designed by Swiss designer Dimitri Bähler. The innovative design features a rotatable core element that rotates 360 degrees for direct or indirect lighting. This level of movement and adjustability gives the Factor Linear its versatility, providing functional or ambient lighting as required. The tubular design is crafted from extruded aluminium and houses a dimmable integrated LED strip.

The Factor Linear is available in two variants: the directional option is ideal for cooler, more focused lighting that suits offices, public buildings, and professional areas, while the diffused version offers a warmer, diffused light output, perfect for creating a comfortable ambience throughout the home. The minimalist finishes, raw aluminium and soft black, bring a simple and understated touch to the interior. Display above tables and work surfaces for an innovative, flexible, and refined lighting solution that blends seamlessly into a range of environments.

PRODUCT SPECIFICATION

Light Source:	**Diffused:** 38W, 2700K, 1800 Lumens **Directional:** 38W, 3500K, 2900 Lumens
IP Code:	20
Dimming:	Dimmable via Dali/Push to dim dimming systems. Please consult your electrician, additional wiring may be required on site.
Dimensions:	Ø3.5cm Length: 152cm Cable Length: 400cm
