PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Klip Wall Light

The Normann Copenhagen Klip Wall Light was designed by Simon Legald and is characterised by its sharp and clean geometrical design cues and its adjustability. Designed with function in mind, this simple wall light brings a functional element to your room. The steel shade can be easily directed to wherever light is needed, making Klip an exceptional task light or spotlight to add brightness to anywhere in your house or commercial space.

Available in white, warm grey, black, and green, the Klip Wall Light can add a monochrome touch as well as a statement to your wall. With the retro on/off switch located on the base of the wall light, it makes it easy to control the lighting output as you wish. All of these functions make the Normann Copenhagen Klip ideal for a workspace, bedside, or living space to bring a functional but stylish lighting solution to wherever it is needed.
