PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Klip Table/Wall Lamp

Designed with functionality in mind and characterised by its sharp and clean geometrical design cues, the Normann Copenhagen Klip is an adaptable design that can be used as multiple lighting solutions. The steel shade can be adjusted 360 degrees to direct the beam of light to wherever it is needed. The specially designed clamp fitting on the Klip Lamp allows the user to attach this lighting solution to various items in their home. Form a shelf to a table top or window sill, the Klip can be added to your interior with ease, providing functional task lighting or ambient lighting.

Available in three finishes, white, green and black, Normann Copenhagen Klip can work with all kinds of styles and interiors. From the simple monochrome of the white and black finishes, to a natural calming interior with the warm grey, or add a modern pop of colour with the green finish.
