PRODUCT DESCRIPTION

Designer: Robert Dabi

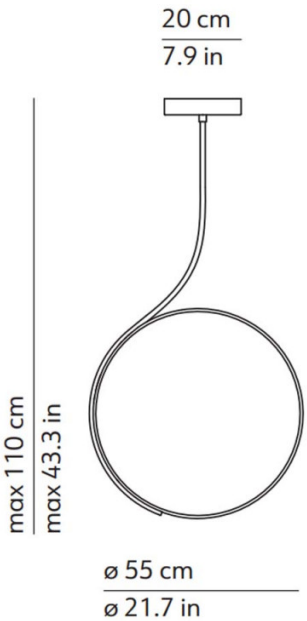

KDLN Poise Ceiling Light

The KDLN Poise Ceiling Light is a dynamic lighting design that appears to defy gravity through its adjustable form. A flexible section between the stem and ring allows the light to be angled and positioned to suit its surroundings. This freedom of movement makes it ideal for creating striking compositions, particularly when several lights are arranged at varying angles for a captivating display.

The Poise Ceiling Light is available in a black finish, complementing the light's minimalist aesthetic. An integrated LED light source in the ring provides a wide spread of atmospheric lighting. The Poise is well-suited to living spaces, adding a warm and comfortable ambience. In commercial spaces, the Poise suits hospitality settings such as a contemporary bar or restaurant. Display with other pieces from the **Poise Collection** to create a harmonious theme throughout the home.
