PRODUCT DESCRIPTION

Designer: Ferm Living

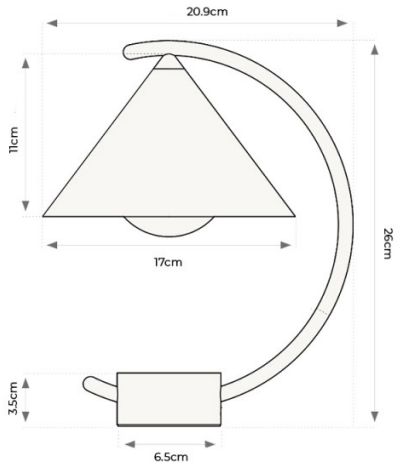

Meridian Portable Table Lamp by Ferm Living

The Meridian light is a beautiful and versatile portable lamp made by Ferm Living. The portable light is defined by three simple geometric shapes, each featuring a curvature for a smooth and pleasing silhouette. The integrated LED source protrudes slightly from the lampshade, reminiscent of a delicate water drop waiting to fall. The conical shade guides light into a wide downward glow, perfect for illuminating a shelf or office desk.

The Meridian portable light is available in three colours: Brass, Black and Cashmere, which all add an elegant element to any interior. The lamp also features an integrated touch dimmer, allowing you to adjust light intensity to suit any setting. The Meridian light is chargeable via the included charging cable. When fully charged, the Meridian provides up to 12 hours of light when used on the brightest light intensity. The Meridian can be easily carried by the slimline, curved stem and can be used in a wide variety of settings for a warm ambience.
