PRODUCT DESCRIPTION

Tiny Lamp by Ferm Living

The Ferm Living Tiny lamp is inspired by Art Deco, featuring a metal design that exudes characteristic lines and a striking silhouette. The lamp is made from iron, lending an industrial touch to many spaces, and has a simple yet effective design to be used both decoratively and functionally. The lampshade is also interactive, being able to tilt so you can create the look and atmosphere you want in your space.

The Tiny light is available in a brass or steel finish, which both are timeless and refined, being able to slip into any design scheme. The small size of the Tiny means you can place it virtually anywhere that needs a handy pocket of light. The playful design also adds character to any interior and will never grow old as design trends come and go.
