&Tradition Colette Table Lamp

The Colette table lamp was designed by &Tradition's team of in-house designers. Taking inspiration from Art Deco design, the light is named after the iconic French author who was a pioneer in the early 20th century. The table light harks back to the Parisian avant-garde scene, using fabric as the main material to create a timeless and distinctive piece. The base is constructed from metal, and the shade is made from plastic that is covered by a blend of cotton and linen for a fresh, playful appearance.

The Colette table light is available in a white finish, with either a black or merlot trim that frames the lamp, enhancing the Colette's classic charm. The clear lines and smooth silhouette create a striking aesthetic that suits a wide variety of settings. The light bulb is diffused, illuminating the lamp in a soft glow while producing a warm ambience. A dimmer on the cable allows users to adjust light intensity to suit any setting. Display next to a bedside, on a coffee table, or on a bookshelf to add a bold personality to the room.
