PRODUCT DESCRIPTION

Designer: Yuue

Northern Balancer Mini Table and Wall Lamp

The Balancer Mini wall and table light brings the design of the Balancer floor lamp to a small scale, offering a versatile and stylish solution. The wall/table lamp features a round lampshade that has a mouth-blown glass diffuser, concealing the LED light source for a warm illumination. The rest of the lamp is made from steel, creating a beautiful contrast of materials that is modern and chic, available in a black, cherry red or steel finish.

The Balancer Mini table/wall light was designed by the Berlin-based studio YUUE, which seeks to adapt objects for everyday life and have interaction and emotion at the centre of their designs. This can be seen in the Balancer Mini as it can transform between wall light and table lamp thanks to a handy magnetic metal plate. The shade is also movable, being able to rotate to direct the light where you need and is equipped with a brass touch dimmer that dims in 3 steps. Use everywhere around your interior for a unique and functional lighting solution.

The Mini Balancer can either be installed directly onto the wall, keeping the cable and plug, or installed into the mains electricity by removing the cable and plug.
