PRODUCT DESCRIPTION

Designer: Gridy

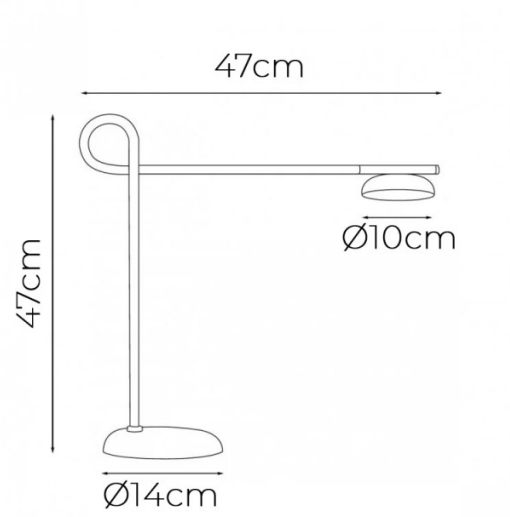

Northern Salto LED Table Lamp

Created by Gridy, the design studio was set up by Oslo-based designers Wilhelm Grieg Teisner and Lars Olav Dybdal, who use their passion for skateboarding and snowboarding as an inspiration for the table lamp. The Salto table light features a signature loop that is characterful and playful, bringing the intrinsic sense of humour of the designers to the product. The table light also has a thin and sleek stem, exhibiting minimalist qualities that are modern and contemporary.

The Salto table lamp has an integrated LED light source which is concealed by an opal acrylic diffuser that spreads the light throughout the space evenly and is rotatable. Available in a subtle beige or black finish, this lamp can suit any interior or design scheme and is equipped with a 3-step dimmer to create the best atmosphere for your space. Perfect for tables, desks, side tables and more for either task/reading lighting or ambient lighting.
