Northern Tradition Pendant

Designed by Morten & Jonas, the Tradition pendant lamp is their take on an age-old craft, recreating it with a new approach. The shade is made using a very finely knitted polyester tube which is then delicately stretched over a metal structure. This material conceals the light bulb and creates a gorgeous soft diffusion that adds a warm and welcoming glow to any interior.

The Tradition pendant comes in three sizes: Small, Tall, and Large Oval, with each one having a unique rounded shape. This sculptural quality makes the pendant a beautiful addition to any interior and will easily slip into any design scheme, whether installed individually or in a cluster to create a striking arrangement. The shade has an opening in the bottom that provides both an overall glow and a direct illumination, perfect for use above tables and surfaces.
