PRODUCT DESCRIPTION

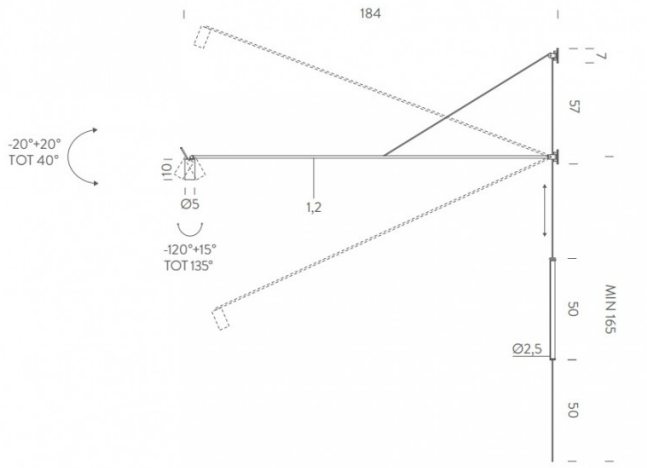

Designer: Bernhard Osann

Nemo Lighting Swan LED Wall Light

The Nemo Lighting Swan wall light is a minimalist and functional wall light that can provide the perfect lighting solution for your space. Protruding 183cm out from the wall, this statement wall light will add a talking point to your space as well as a functional spotlight. The aluminium matt black structure can rotate 40 degrees vertically and 180 degrees horizontally due to the leather counterweight. This makes this lamp perfect for the use as a task light as the cylindrical spotlights creates a beam that can be directed and focused accurately. Place this in your study and office space or give your living room a touch of grandeur and place this in your lounge or dining area to showcase your home or commercial space with ease.
