PRODUCT DESCRIPTION

Designer: Arihiro Miyake

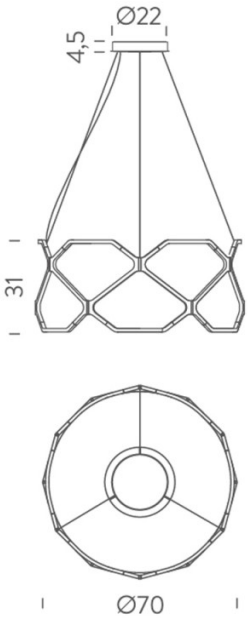

Nemo Lighting Titia Minor LED Pendant Light

The Nemo Lighting Titia Minor LED Pendant was designed by Arihiro Miyake, a Japanese designer who is inspired by the simplicity of light itself. This can be seen in the design processes and thoughts behind the Titia Minor, the designer stated the design 'represents a jump to the future in the dematerialization and miniaturization of light sources, becoming part of the structure itself'. This unique structure was created through the use of recycled polymer as each module is formed by injection-molded polymer. This method has produced a design that is easy to assemble and creates a simple yet striking silhouette.

Place the Titia Minor LED pendant in your living space or work environment to create a lasting impact as well as demonstrating the beauty of modern contemporary design.
