PRODUCT DESCRIPTION

Designer: Vincent Van Duysen

Flos Gustave Residential Portable LED Table Lamp

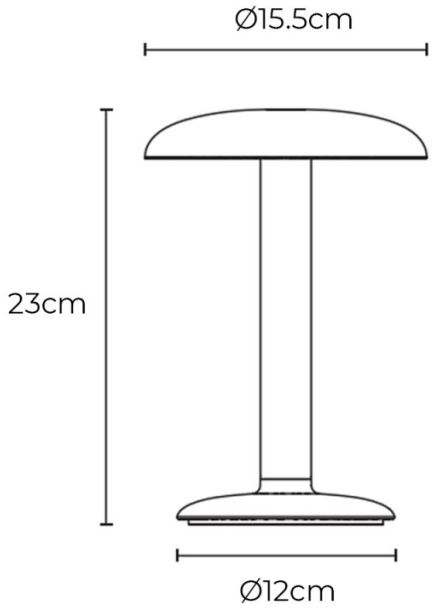

Gustave is the latest addition to Flos' portable collection. Designed by Vincent Van Duysen, the lamp is a reference to Wes Anderson's character Gustave from the movie "The Grand Budapest Hotel". Gustave emits a 360° asymmetrical light, around the position of the lamp, making it the perfect choice for a table hosting 4 guests. As such, the lamp provides the maximum ratio between the surface occupied by the lamp and the illuminated area around it.

The portable lamp is **rechargeable**, using the **USB-C** cable provided and has replaceable Lithium-ion batteries (supplied by Flos). Charging time can take up to 6 hours, while autonomy can last 6 hours at 100% or up to 18 hours at 25%. A touch dimmer, located on the lampshade, allows you to adjust light intensity. from 100% to 1%, or on and off with a single touch. Available in 7 colours to choose from: white, anthracite, green, brown, smooth black, raw aluminium and silver.

Gustave is also available in a **Hospitality version**, with different specifications to allow for multiple uses (dimming, charging and battery options. Please contact us for more information and pricing.
