PRODUCT DESCRIPTION

Designer: Edward Barber & Jay Osgerby

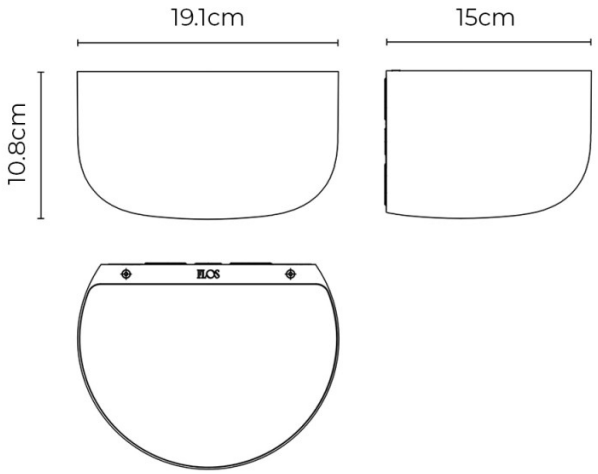

Flos Bellhop Wall Up

An elegant addition to the Bellhop Collection, the Flos Bellhop Wall Up Light was designed by Edward Barber and Jay Osgerby. The Wall Up provides an indirect warm white light emission and can be installed facing upwards or downwards. Available in the same bright finish options as the Bellhop Portable: white, grey, grey blue, brick red, cioko and yellow - the Bellhop Wall Up brings a touch of colour to any space. Its IP44 rating allows you to install it in both indoor and outdoor areas, as well as bathrooms and wet rooms.

The Flos Bellhop Wall Up is a future-proof luminaire, designed via the Flos For Future initiative, and can be disassembled and recycled separately. The LED light source has a 50.000 hours lifetime and can be replaced (by a professional) after that. It is an excellent way to add soft indirect illumination to a range of spaces, and can be easily dimmed to personalise the ambience for your needs.
