PRODUCT DESCRIPTION

Designer: Charlotte Honcke Design

Design For The People Hello Table Lamp

The Hello Table Lamp by Nordic designer Charlotte Honcke, embodies playfulness and functionality. Honcke's inspiration for her beautiful light is "lamps need to be beautiful when turned off", and the Hello Table Lamp is an excellent example of that. Mixing functionality with fun and contemporary design, the classic oval emits bright beautiful light and a quirky, modern shape for any room.

With the Hello Table Lamp, the frosted glass sphere sits snugly in the large shade which reflects light back into the room, providing both direct and indirect light and creating a warm, cosy ambience. The lampshade can also be turned all the way around, meaning the light can be directed where required to highlight features in a room or provide direct light for tasks. The Hello is a perfect addition to your workspace, living room side table or next to your bed. The possibilities truly can be endless with such an easily adaptable lamp.
