PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Kartell Mini Geen-A Battery

A more compact addition to Kartell's Geen-A collection, the Mini Geen-A is a portable and battery-powered table lamp. Available in a striking colour palette, with a unique silhouette, this luminaire provides a diffused downlight that creates cosy pockets of illumination. The Kartell Mini Geen-A Battery also has an integrated dimmer, so you can easily adjust the light intensity. With a battery life of 7 hours, you have full autonomy with Mini Geen-A and can easily carry it from room to room as you need it. The IP54 rating also ensures it can be used in exterior settings as well as in your interior.

The Kartell Mini Geen-A Portable Lamp is crafted entirely out of steel and is a combination of various geometric shapes, all perfectly balanced. The dome-shaped shade paired with a handle allows you to easily pick up and transfer the Mini Geen-A around. A minimalist, lightweight and rechargeable table lamp, designed by Ferruccio Laviani for Kartell, the Mini Geen-A is bound to become a Kartell classic.
