PRODUCT DESCRIPTION

Designer: Space Copenhagen

Gubi Howard Chandelier

The Howard Chandelier, designed by Space Copenhagen, is the centrepiece of the Howard Collection. A striking blend of industrial craftsmanship and modern elegance, this chandelier pays homage to New York's architectural beauty. Available in four-arm and six-arm configurations, the chandelier features slender metal arms with gunmetal or bone china shades. The gunmetal brass option adds a bold, industrial character with its brushed brass interior that emits a warm, inviting glow. Meanwhile, the bone china shades offer a softer, diffused light, perfect for creating a serene ambience.

Ideal for grand dining rooms, high-ceilinged living spaces, or commercial settings such as hotel lobbies, the Howard Chandelier makes a commanding statement. The four-arm design is available in short and standard arm options, allowing for versatile placement, whether as a low-hanging dining table light or a high-suspended focal point in larger rooms.

Please note, the Gubi Howard Chandelier can be supplied with shorter poles upon request, please contact us for more details.
