Brokis Orbis LED Pendant

The Brokis Orbis LED Pendant is a modern and refined lighting solution that fuses traditional craftsmanship with sharp contemporary form. Crafted from handblown smoke glass and finished with a faceted black powder-coated metal cap, the Orbis pendant plays with balance, volume, and silhouette. The top of the glass shade is cleanly cut to integrate the angled fixture, creating a unique visual break that enhances the sense of tension and sophistication in the design.

Fitted with a built-in LED panel and opal diffuser, the pendant casts a soft and comfortable glow below, ideal for ambient lighting in kitchens, living rooms, hospitality venues, and workspaces. Available in three distinct sizes, the Orbis pendant can be used individually or arranged in statement clusters thanks to its modular Brokis connector. Subtle in colour yet bold in concept, Orbis brings visual clarity and thoughtful engineering to any space.

The Brokis Orbis Pendant is available in several glass colour options, each of which is paired with metal components in a predetermined corresponding colour. It is also available with dimming capabilities, including Dali, 1-10V and Casambi. Please contact us for more information and pricing.
