PRODUCT DESCRIPTION

Designer: Says Who

Nordlux Dial Wall Light

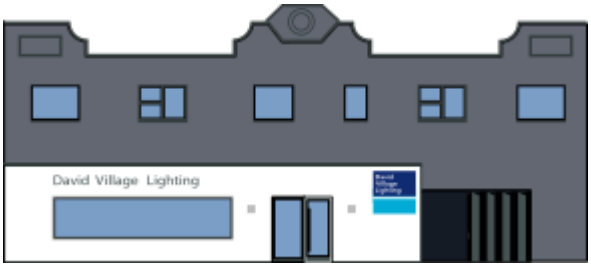

The Dial Wall Light hangs decoratively on the wall, with a wide, open shade allowing light to fill the surface underneath, illuminating a coffee table or other items within the home. The open upper part of the shade means light can travel upwards creating a two-way lighting effect, as well as the shade being adjustable so you can direct light in any way you like. The slim fixture and frame allows the lamp to be mounted on the wall simply and practically, with a curved rod adding effortless style to this retro-chic product.

The Dial Collection is inspired by cool and stylish designs from the 1950s, bringing that bit of retro nostalgia to your home. Available in black, grey and white, Says Who combine their ideas of traditional clear-cut Scandanavian Design with playful, retro-chic.
