PRODUCT DESCRIPTION

Designer: Davide Groppi

Davide Groppi FM LED Table Lamp

FM LED Table Lamp was created by the award-winning world-class Italian designer, Davide Groppi. Recognised through the media for his outstanding achievements with his creative designs, he has won several awards and from humble beginnings has created a lighting enigma. FM LED Table Lamp is an antenna of light that casts a spotlight as if highlighting a performer on a stage, creating a unique, mysterious design spectacle.

The Davide Groppi FM LED Table Lamp has been given a tall rod which appears from a spherical base and a lamp head sitting at the top. FM Table Light also includes an integrated dimmer enabling different mood settings for a room. With its integrated LED, FM can illuminate any particular space; place it in a bedroom as a reading lamp or even use it in a gallery or exhibition to showcase something special to a group of spectators. Available in different colour temperatures: 2700K warmest white or 3000K warm white. Whichever you choose, the lights' glow is warm, comforting and inviting, perfect for bedrooms, living rooms and dining rooms.

Please note, that the power supply is included.

PRODUCT SPECIFICATION

Light Source:	**Warmest White** 1.5W 2700K 154 Lumens **Warm White** 1.5W 3000K 179 Lumens
