PRODUCT DESCRIPTION

Designer: Says Who

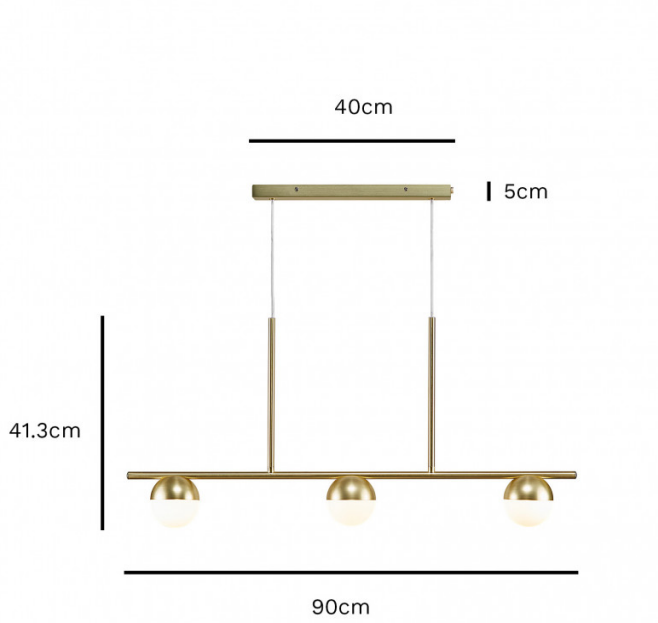

Nordlux Contina 3-Spot Pendant Light

The Nordlux Contina 3-Spot Pendant Light has a slim, contemporary black or brass frame, holding three matte white glass balls that emit practical light, illustrating a modern, art-deco style. Mixing stylish design and practicality, details have been chosen to make the Contina 3-Spot stand out and be unique. The opal mouth-blown glass bulbs shield the light sources and create a soft, atmospheric light that is glare-free and spreads throughout the nearby space. The 3-spot's Scandinavian design means the frame is slim, so it doesn't take up more space than necessary, meaning the only focus is on the soft white light emitting from the light source.

The Contina 3-Spot Pendant Light is available in a brass finish and fits a dimmable bulb, enabling different light intensities for different moods in a room. Suitable for multiple uses, such as hanging low over a dining room table, or practical light over a kitchen table or desk.
