PRODUCT DESCRIPTION

Designer: Kasper Friis Kjeldgaard

Fritz Hansen Oneline LED Pendant

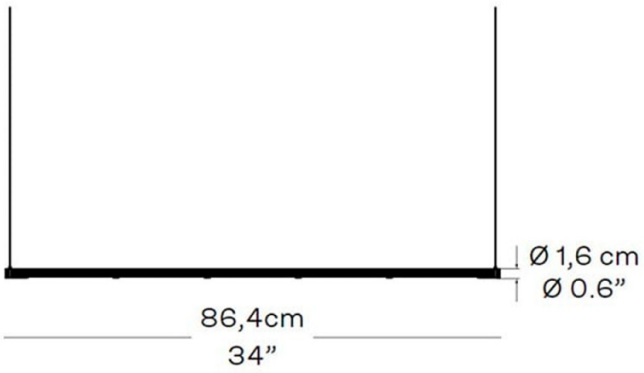

The Fritz Hansen Oneline LED Pendant was designed by Kasper Friis Kjeldgaard and harbours a modern and minimalistic design. With three different finish options, it can blend easily into almost any interior, whilst standing out at the same time. The Oneline is fitted with long-lasting LED technology and can be rotated 360 degrees, offering either direct downward or indirect upward lighting, depending on how you decide to display it. This personalisation assists you in optimising your space to fit your needs.

The Oneline makes a perfect task light or ambient light. For this reason, this elegant light can be hung in the kitchen, above a desk, over your dining table or even in a bedroom or library. In case of repair and disposal, the pendant can be disassembled into parts; upon disposal, all parts can be recycled.

You can connect up to 3 Oneline pendant lights in a row with connectors, which can be purchased separately. Each lamp must be installed as a standalone, as the connector does not transfer electricity. The Oneline is also available in a Steel finish, please contact us for further information and pricing
