PRODUCT DESCRIPTION

Designer: Philippe Starck & Eugeni Quitllet

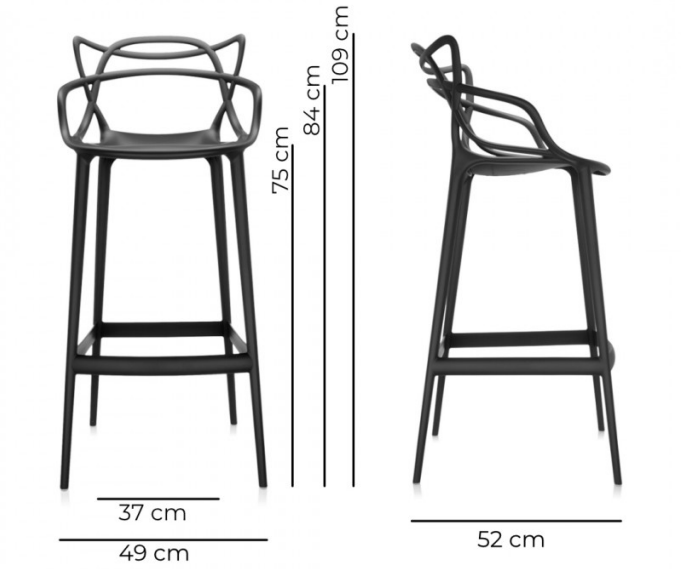

Kartell Masters Stool 109cm

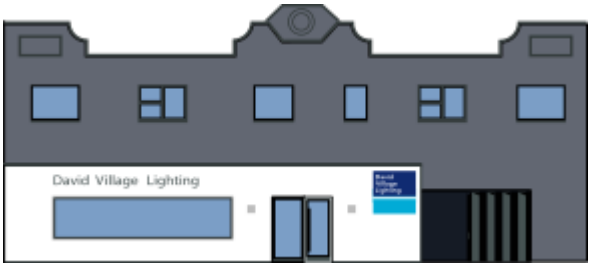

Designed by Philippe Starck, the Kartell Masters Stool was inspired by three symbolic designs: the "Tulip Armchair" by Eero Saarinen, the "Eiffel Chair" by Charles Eames and the "Series 7" by Arne Jacobsen. Masters has become an icon in furniture design, and boasts a unique silhouette that is designed for maximum comfort. Available in multiple colour options, the stool is the perfect choice for both indoor and outdoor seating, bringing a touch of colour into any space.

The Masters 109cm is the tallest of the two stool sizes, while the collection also includes a shorter version with a height of 99cm, as well as the iconic **Masters Chair**, which won the Good Design Award in 2010 and the Red Dot Award in 2013. The chairs and stools are made of polypropylene, and the lightweight material allows you to easily use and move them around the table or bar.
