PRODUCT DESCRIPTION

Designer: Arne Jacobsen

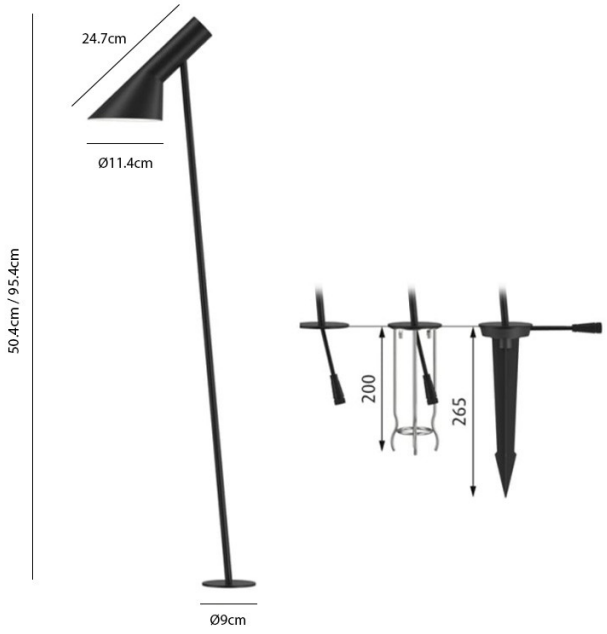

Louis Poulsen AJ LED Exterior Garden Bollard

The Louis Poulsen AJ Exterior Bollard emits a pleasant, direct and glare-free light. It boasts a fixed head, with the inside of the shade painted white to ensure a soft reflection of light. The shape of the shade provides superior lighting, allowing an optimal view of the surroundings. The AJ garden bollard is available in two different sizes and can be fitted with three different base types: a standard base plate, a spike or an anchor.

The AJ Garden Bollard is a fresh take on the original **AJ Collection**, which is regarded worldwide as Danish architect Arne Jacobsen's best work. Utilising the same angles and forms as those originally designed for the SAS Royal Hotel in Copenhagen, the AJ Garden bollard seamlessly fits into the family. This exterior lamp follows the same design principles as the rest of the collection - harbouring the same sophisticated expression, the stem even has the same characteristic tilt angle as the AJ Floor. The iconic AJ Garden bollard makes it possible to enjoy Arne Jacobsen's design in a wide range of outdoor settings.
