## PRODUCT DESCRIPTION

**Designer:** Arturo Alvarez

### a-emotional light Onn Pendant Light

Arturo Alvarez designed the Onn Pendant for a-emotional light. An innovator as well as a designer, Alvarez created the patented stainless-steel mesh that the pendants are made from - SIMETECH®. SIMETECH® makes a typically resistant steel malleable, allowing for creative freedom in design which results in a natural and unique finish. The organic-looking form of the Onn Pendant is inspired by marine life. Shells, seaweed, and corals can be seen referenced through their unusual shapes.

The direct downward light from the Onn Pendant makes them ideal for installing above surfaces such as tables or a kitchen island. They are available in four sizes, mini, small, medium, and large, and can be hung individually or as multiples to create interesting compositions within your home. These pendants are also available in beige, grey, and taupe or as an LED version. Please contact us for further information.
