PRODUCT DESCRIPTION

Designer: Signe Hytte

New Works Karl-Johan Portable Table Lamp

Please note, the Karl-Johan Portable is sold in packs of 4. You can select different colour options, for each item in the pack.

The Karl-Johan Portable Table Lamp is the new addition to the Karl-Johan collection, designed by Signe Hytte and inspired by nature it is both lightweight and easily transportable. This makes it possible to take the lamp out into the elements of nature; on your balcony on a warm summer evening, in your garden to read your favourite book and even for a swim on the beach. The material is impact-resistant and the IP65 rating ensures it repels rain, sand, and soil so that it can follow you indoors and outdoors.

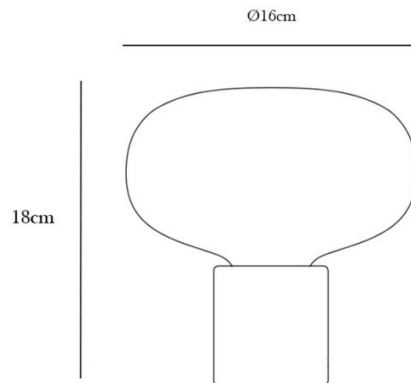

By twisting the upper part of the lamp, the light is easily turned on, emitting a softly diffused light through the shade. The brightness can be adjusted to three intensity levels by the touch dimmer underneath the lamp base. The base comes in five colours, depending on your personal style, meaning it can easily adapt to a wide range of décor styles.

The Karl Johan Portable Table Lamp is charged with an included magnetic cable and can light for up to 22 hours.
