## PRODUCT DESCRIPTION

**Designer:** Says Who

## Nordlux Temple To-Go 35 Portable Solar LED Lamp

The Temple To-Go 35 is a slightly larger version of the [Temple To-Go 30](#).

Designed by Says Who, a Danish design duo, the Temple To-Go 35 makes a great addition to your balcony, garden or any other exterior space. This portable solar LED lamp fits snugly on a table or is big enough to work as a floor lamp on your grass, or on your decking. The handle also means it can be suspended like a traditional lantern. Thanks to the solar property the Temple To-Go will illuminate as soon as darkness falls, as long as it has been charged via sunlight during the day. The diffuser creates a cosy yet practical light, perfect for warm summer evenings in the garden.

This portable solar LED lamp is manufactured from durable materials, with an IP54 classification, the Temple To-Go 35 is ideal for outdoor settings and is even well suited for harsher weather conditions.

The battery life of Temple To-Go 35 is 5 hours, while this is a solar lamp it can also be charged via a USB cable (included) - the charging time is 8 hours from 0%-100%.
