Design For The People Glossy Table Lamp

Designed by Maria Bernsten, the Glossy table lamp is the definition of elegance. The combination of natural materials such as marble, brass and glass make this lamp incredibly sophisticated, a design that oozes Nordic Nordic minimalism. Glossy takes its name from the shiny white opaline glass surface of its lampshade which gently distributes a soft and pleasant down light towards the floor, providing a beautiful indirect light in your room. It is possible to turn the table lamp on and off via the switch integrated on the cable.

This lamp can be placed flexibly and enhances any environment, it may be simple but it still stands tall as an aesthetic eye-catcher in your interior. In 2021, this table lamp was awarded for its exceptional design and quality, winning the design prize Red Dot Award 2021 in the category "Lighting Design". Glossy is a perfect addition to a modern workspace or office, a minimalistic living area, hallway or even your bedroom.

Marble is a natural material and therefore lines, colours and patterns may vary from lamp to lamp.

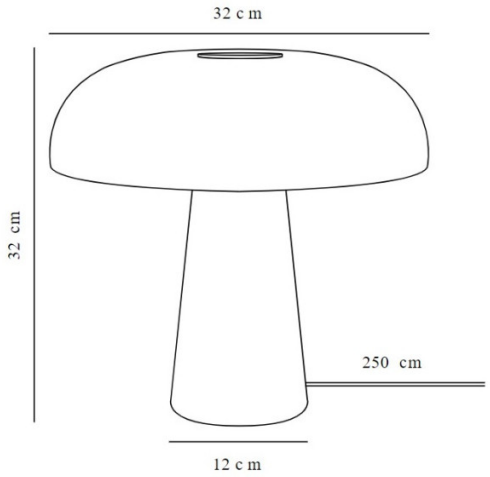

PRODUCT SPECIFICATION

Light Source: 1 x Max 15W E27 (excluded)
