PRODUCT DESCRIPTION

Designer: Maria Berntsen

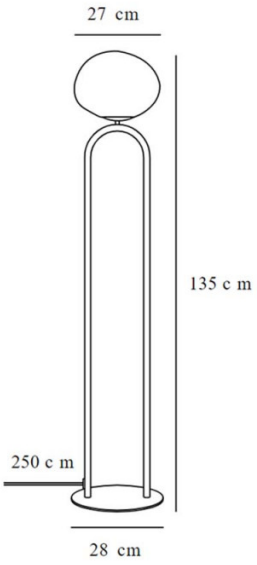

Design For The People Shapes Floor Lamp

Designed by Maria Bernsten for Design For The People, the Shapes Floor Lamp was inspired by elegant jewellery and is made from exclusive materials. The unique shape and the intricate brass body of this floor lamp result in a truly unique configuration that is a great addition to almost any interior décor style. This lamp can blend into modern interiors or more traditional classic styles.

When switched on the Shapes Floor Lamp produces a warm glow that is diffused through the opal glass shade - the opal glass shade compliments the brass and results in a bold contrast between the two elements. The soft light emitted from the diffuser is reflected in the brass of the lamp and ensures Shapes will be an eye catcher. The Shapes Floor Lamp is a beautifully formed lamp with a hint of nostalgic charm, perfect for your living room, bedroom, hallway and even public spaces such as restaurants or hotels.
