Design For The People Mademoiselles Table Lamp

Designed by Sofie Lefèvre, the Mademoiselles Table Lamp boasts an unusual design, making it a guaranteed eye catcher wherever you decide to display it. This lamp consists of a narrow marble base, which is connected to the oversized lampshade via a filigree brass element. The oversized reflector is able to tilt to your needs, light is reflected upwards onto the bottom of the shade, creating a soft, indirect ambience.

Lefèvre manages to harmoniously combine elegance with modern technology. The solid marble base ensures the Mademoiselle is a strong and sophisticated lamp, while the beautiful gold details offer a refined touch. Available in two colours, white or black, this magnificent table lamp will undoubtedly find an exceptional place in your interior. Mademoiselles looks wonderful in the living room, bedroom or entrance hall.
