## PRODUCT DESCRIPTION

**Designer:** Bjørn + Balle

### Design For The People Arcello LED Portable Table Lamp

Designed by Bjørn + Balle, the Arcello LED Table Lamp is an elegant portable light with a pleasant and glare free downward facing light. The design is simple, yet distinct Scandinavian design with a beautiful, uniform anodized surface available in burnished brass. The Arcello can be used either indoors or outdoors, thanks to the IP54 certification, making it a summer must have for colder evenings sitting around an outdoor fire, as the early nights draw in, or during summertime when the warm evenings lead late into the night.

This portable table lamp has a rechargeable battery, which is easily charged via the included USB cable - so no fixed power connection is needed for operation. With the integrated dimming function, the brightness of the light can be regulated in three stages: 100 Lumen, 200 Lumen, 300 Lumen.

**Arcello battery life:**
**Brightest (300lm): 5h**
**Medium (200lm): 10h**
**Lowest (100lm): 20h**

## PRODUCT SPECIFICATION
