PRODUCT DESCRIPTION

Designer: Bønnelycke MDD

Design For The People Kaito 2 Dim Ceiling Light

The Design For The People Kaito Dim Ceiling Light was designed by Bønnelycke MDD, and offers an adjustable round modern design that allows you to move the light source to face whichever area of your space requires the light most. The diffuser can be turned in all directions and offers complete flexibility. This minimalistic design optimises the use of classic brass detailing to add an elegant touch to this lamp.

The integrated LED module provides a soft luminosity which is diffused through the satin glass, casting a warm white light across your surroundings and avoiding any harshness. This LED light is also dimmable, ensuring you can easily personalise the ambience of your space. This subtle but functional ceiling light is a great addition to your kitchen, hallway and staircase.
