PRODUCT DESCRIPTION

Designer: Maria Berntsen

Design For The People Stay Short Wall Light

Designed by Maria Bernsten, the Stay Short Armed Wall Light is a sleek and modern lighting solution, this fixture takes up little space on your walls whilst still producing a sufficient light, thanks to the shape of the shade. The light source emits a comfortable and soft light into the room, and a diffuser on the top of the shade also allows light to escape, providing both a downlight and an uplight. Great for creating a cosy ambience or for when relaxation is key.

The Stay Wall Light is designed to suit almost any contemporary interior. With an adjustable shade and an integrated switch on the body of this lamp, the Stay Wall Light is a great addition next to your bed as a reading light. Alternatively it can add a touch of sophistication to your kitchen or hallway.
