PRODUCT DESCRIPTION

Designer: Maria Berntsen

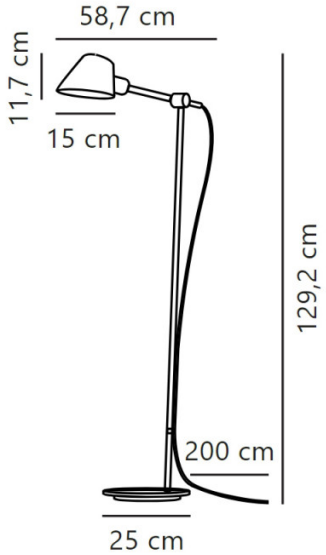

Design For The People Stay Floor Lamp

Stay Floor Lamp was designed by Maria Berntsen and provides both functional and beautiful lighting for your environment. The shade is adjustable to personalise the direction of the light and hosts an integrated on/off switch. The integrated switch is discreetly located on the back of the lamp head in order to not disrupt the minimalistic Nordic design.

The light is able to escape via the bottom and the top of the lamp head, providing you with both an uplight and downlight - and therefore optimising the amount of light emission. This floor lamp makes an exceptional reading lamp next to your sofa, in your bedroom to create a relaxing ambience and even in your hallway for a warm inviting atmosphere when you get home.
