PRODUCT DESCRIPTION

Designer: Rodolfo Dordoni

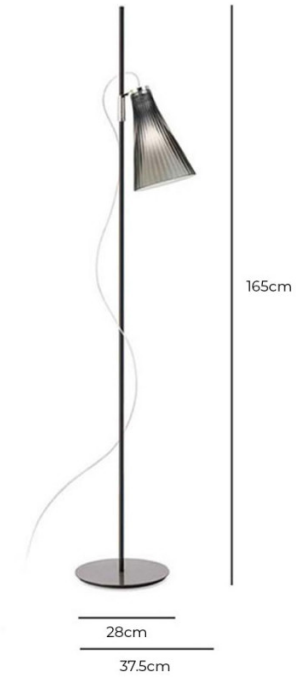

Kartell K-Lux Floor Lamp

Designed by Rodolfo Dordoni for Kartell, the K-Lux Floor Lamp is guaranteed to be an eye-catcher. The base of the lamp is crafted from powder-coated steel, with the shade made from a textured plastic material which resembles glass, giving the floor lamp a sophisticated look. The pleated effect of the shade creates a beautiful play of light when the lamp is switched on; the double colouring of the shade enhances this effect as the light reflects off the white interior. The lampshade height can also be adjusted; it slides up and down the stem in order to offer you a perfect beam of light.

The Kartell K-Lux Floor Lamp is a beautiful and sophisticated addition to your home; specifically in the living room as a reading light, your hallway for a warm welcome when you get home after a long day, in your bedroom to create a perfect relaxing ambience, or in your study or workspace as a functional task light without the harsh glare.
