PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Kartell Tea Table Lamp

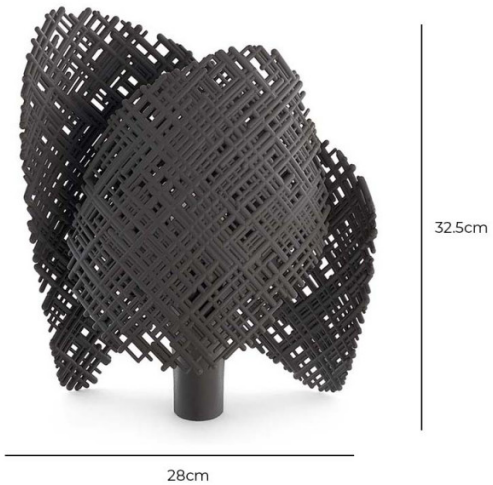

Designed by Ferruccio Laviani for Kartell, the Tea Table Lamp consists of an abstract-shaped shade that seems to resemble two hands holding the light source in their palms. Thanks to the innovative and irregular texture on the two shades, the Tea creates beautiful shadows that project across its surroundings. The light emission that is produced by this lamp is a warm glow, guaranteed to provide functionality but also create a calming environment. This makes the Kartell Tea Table Lamp perfect for living areas, bedrooms, coffee tables and public spaces such as restaurants and hotels. Tea by Kartell is available in a range of natural colours, ensuring that this table lamp can not only blend into any interior, but enhance it.

The Tea lamp is made of recycled thermoplastic techno polymer, although it appears to be crafted from ceramic. With this table lamp, Laviani proves that it is possible to utilise modern-day materials to achieve a natural and fragile look - just like more classic and delicate materials such as glass or ceramics. This results in the Tea lamp not only being durable and authentic, but also eco-friendly. A perfect combination of functionality and sustainability.

Please Note: This table lamp comes with a cable and plug, so must be placed near a socket.

PRODUCT SPECIFICATION

Light Source:	1 x Max 5W E14 LED (Included)
IP Code:	20
Dimming:	In-line on/off switch on the cable.
Dimensions:	Height: 32.5cm Width: 28cm Depth: 21cm
