PRODUCT DESCRIPTION

Designer: Ludovica & Roberto Palomba

Kartell HIRAY Sofa

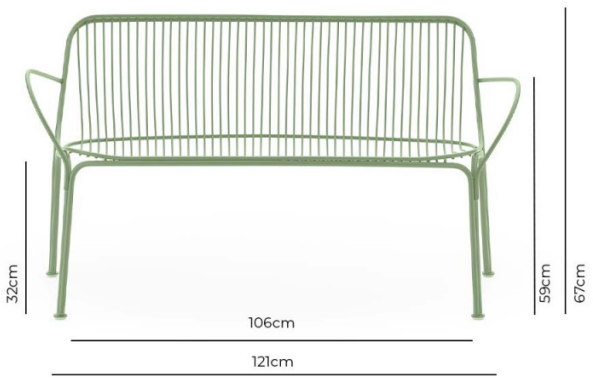

Designed by Ludovica & Roberto Palomba in 2022 for Kartell, the HIRAY Sofa is a stylish and functional seating option, optimising organic shapes with a strong structure. Made from galvanised steel, Kartell have showcased how metal can be just as lightweight as plastic. The steel is weather proof, making the HIRAY perfect for all year round, with the ability to leave it in your garden throughout every season.

The seat utilises metal wires to form well-defined yet lightweight structural parts of the sofa, with a curved seat which puts your comfort first. The Kartell HIRAY Sofa is available in four colours, making it easy to blend into a large range of environments and styles. A perfect addition to your decking, patio and private garden for warm summer nights relaxing or hosting with friends.

Please Note: the Kartell HIRAY Sofa does not come with cushions included.
