PRODUCT DESCRIPTION

Designer: Joana Bover

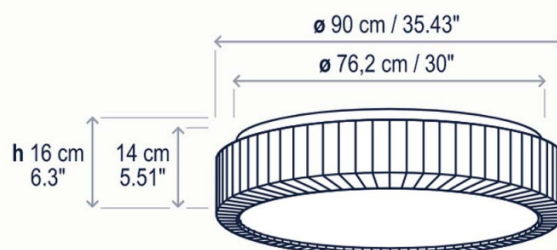

Bover Urban PF/90 LED Ceiling Light

Usually utilised in the hospitality sector, and still appropriate for use in larger residential spaces, the Bover Urban PF/90 is a luxurious and unique lighting solution. Another beautiful design by Joana Bover, the Urban was released in 2011 and boats a metal structure with a shade that is hand wrapped in translucent pleated fabric. The result is a sleek ceiling lamp, that provides a warm and cosy glare free light for your space. The polycarbonate diffuser and the translucent shade assists in an emission of light downwards and also to the sides, ensuring an even illumination.

The Bover Urban PF/90 LED Ceiling Light is a perfect addition to restaurants, bars, cafes, hotel lobbies and office buildings. The design perfectly combines minimalism with contemporary lighting, and the result is a lighting solution that can blend into almost any interior setting. Available with either a white ribbon shade or a cream ribbon shade.
