PRODUCT DESCRIPTION

Designer: Alex Fernandez Camps

Bover Valentina S/24 LED Suspension

The Valentina LED Suspension is another innovative design by Alex Fernandez Camps in partnership with Spanish manufacturer Bover. The main feature of this suspension light is the smooth curved shade, which boasts a grooved interior inspired by the tide on the Mediterranean coast - it contrasts beautifully with the simple outer shade. The LED light source is embedded discreetly into the inside of the shade and is not noticeable at first, the light source produces a warm white illumination that is projected downwards through a polycarbonate diffuser, resulting in a calm and even down light.

Valentina creates a relaxed ambience in your space, and thanks to its dimmability, you can personalise the light output depending on your mood or the room you decide to display this luminaire in. The shade of the Bover Valentina LED Suspension is available in a range of subtle colours, making it possible to integrate it into a range of personal styles and interior décor styles. As well as a choice of colour, you can also choose between either a ceiling canopy or a recessed installation option, depending on your personal preference.

PRODUCT SPECIFICATION

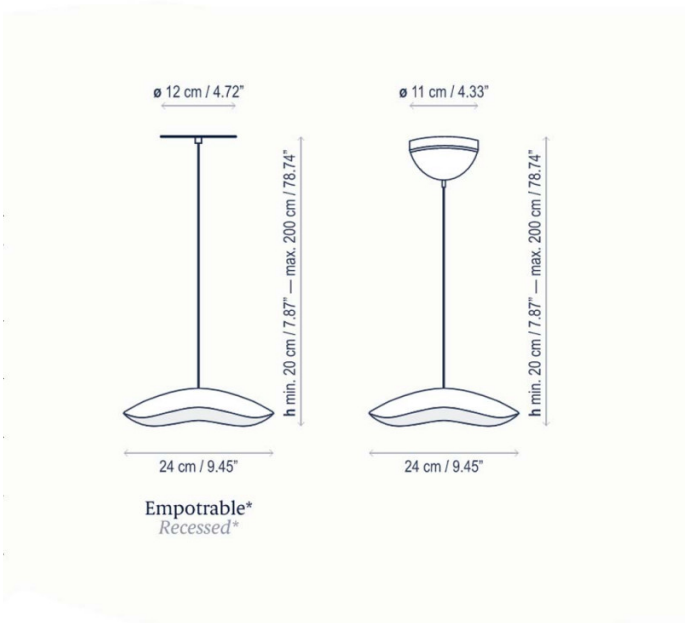

Light Source: 6.5W, 2700K, 715 Lumens

Dimming: Dimmable via Triac dimming.

Dimensions:

Recessed:
Shade: Ø24cm
Minimum Drop Height: 20cm
