PRODUCT DESCRIPTION

Designer: Gonzalo Mila

Bover Nit 80/R Outdoor Lamp

The Bover Nit 80/R Outdoor Lamp was designed by Gonzalo Mila and consists of a round surface that perches on top of a hand woven base. The Nit lamp is battery powered and boasts an integrated LED light source which is emitted both above and below the circular surface, ensuring an even illumination. The upper light emerges discreetly above the surface, it follows through into the inside of the metal structure, illuminating the underneath of the surface and the woven sides.

The Bover Nit LED Outdoor Lamp also boasts a three step dimmer, providing you with a choice between three lighting outputs: 33%, 66% or 100% depending on your environment or personal needs. This makes the Nit Outdoor great for mood lighting and creating a warm ambience. The IP44 certification makes the Nit 80/R perfect for outdoor use and is ideal for private gardens or outside settings where you are likely to host friends or socialise.

Battery charging time: 7 hours.
Battery duration time at 100%: 12 hours.
Battery duration time at 66%: 21 hours.
Battery duration time at 33%: 30 hours.

Battery charger included.

The Nit Outdoor is also available in a smaller size, Ø60cm, please contact us for further information and pricing.
