PRODUCT DESCRIPTION

Astro io LED Pendant 1000

Astro io Pendant 1000 boasts a sleek and contemporary design, inspired by the intricate details in Greek pillars - io is derived from the Greek term 'ionic'. This LED Pendant is crafted from glass, with the LED light source neatly concealed within the cylinder. This ensures that the glass elements remain the centre of attention, whilst also resulting in the illumination reflecting and creating a beautiful lighting effect. The integrated LED assists in saving energy, and also ensures it is easy to maintain.

Astro io 1000 adds a sense of luxury to your environment, available in two finishes and with an adjustable height, it guarantees it can adapt to a wide range of interiors and personal styles. This luminaire can make a statement in a multitude of settings but is especially influential when suspended above a dining area, above a kitchen counter or in commercial settings such as restaurants, cafes, galleries and shopping centres.
