Aromas Del Campo Kine LED Table Lamp

Another gorgeous contemporary design by Pepe Fornas, the Aromas Kine LED Table Lamp is crafted from marble and steel and was inspired by the traditional Asian Non La hats. These hats are utilised to protect from the elements, and boast an iconic form with a sharp silhouette. The Kine Table Lamp also harbours this form. The marble base grants a unique element to your space, whilst the steel shade results in an Avant Garde finishing touch.

Aromas Del Campo Kine LED Table Lamp adds a luxurious touch to your environment, and thanks to the beautiful silhouette the light emission is softly projected downwards; this results in a warm downlight that illuminates the surface below. Kine is a perfect addition to hotels; utilise it to illuminate your reception desk, create an ambience in your restaurant or bar setting and even place it on bedside tables in hotel rooms to help your guests relax.
